Issues Resulting From 27 Jan 86 Traffic Advisory Committee Meeting

1. How will issues in which there is no clear consensus be
STATesolved? What is the process?

2. The Ad Hoc Committee (Ad Hoc) wants Route 193 moved some
80 to 120 feet away from the Evermay property line, or some 40 feet
north of its existing location, from about Turkeyrun Road to where
it intersects Route 123. The reason for doing so varies with the
STATproposed solution.

3. The Ad Hoc wants, not on its behalf but on behalf of
nearby neighbors, a traffic light installed at the Seville
Lane/Merchants Road intersection with Route 123. (not a new issue)

Commitments Made at the 29 Jan 86 Traffic Advisory Committee Meeting

1. The State of Virginia (Va.) agreed to have Dewberry & Davis (A&E under contract to Va. for design of Route 123 changes) design and analyze the feasibility of an offset intersection of Routes 193 and 123 in an attempt to satisfy an Ad Hoc concern. In addition to this apparently major concession, the State also agreed to have Dewberry & Davis explore other possible solutions to the expressed Ad Hoc concerns.
2. The TAC Chair agreed to explore the feasibility of Va. and the Agency agreeing not to surplus excess Va. property resulting from moving the eastbound lane of 123 alongside the westbound lanes.
3. The TAC Chair agreed to send to all TAC members either full-sized or down-sized copies of the Dewberry & Davis drawings used at the meeting, and to send them along with the meeting minutes.
4. The TAC Chair agreed to determine and advise the status of the \$500,000 funding for an additional traffic lane on I 495 Northbound, between Route 193 and the George Washington Parkway on-ramp.

Agency Alternative Courses of Action to Resolve Ad Hoc Committee
Concerns Over the Design of the Routes 193 and 123 Intersection

Alternative I:

- (a) Send copies of the 29 Jan TAC minutes, along with the promised copies of the drawings, to all TAC members.
- (b) Advise TAC members in the cover letter that all of the views represented at the 29 Jan TAC had been conveyed to the CIA's Deputy Director of Administration (DDA) for review and decision.
- (c) Advise all TAC members in the cover letter that the DDA has requested that the State of Va. proceed with the detailed design of the Route 123 changes as proposed by the State's A&E.

Alternative II:

- (a) Send copies of the 29 Jan TAC minutes, along with the promised copies of the drawings, to all TAC members.
- (b) In the cover letter, ask all members to review the minutes and drawings with particular attention to the Ad Hoc concern with the Route 193/123 intersection as designed.
- (c) Request TAC member written positions of the Ad Hoc concern within 10 days.
- (d) Present analysis of issue, TAC member issue papers, and NBPO recommendation to the DDA for his review and decision.
- (e) Advise TAC members of the DDA's decision, in writing.
- (f) Request the State of Va. to proceed with the detailed design of the roadway changes in accordance with the DDA's decision.

Alternative III:

- (a) Send copies of the 29 Jan TAC minutes, along with the promised drawings, to all TAC members.
- (b) Announce, in the cover letter, a second meeting of the TAC to address the Ad Hoc issues, approximately two weeks after receipt of the letter. Advise that TAC members will be requested to state their positions on the Ad Hoc issues. The second meeting will review the design as proposed and will include treatment of the staggered design requested by the Ad Hoc.
- (c) Accumulate TAC position papers and State positions, and, along with NBPO recommendation, forward to the DDA for review and decision.
- (d) Advise TAC members, in writing, of the DDA's decision.
- (e) Request that the State of Va proceed with the detailed design of the roadway modifications in accordance with the DDA's decision.

Alternative IV:

(a) Send copies of the 29 Jan TAC, along with promised copies of the drawings, to all members.

(b) In the cover letter, advise all members that the Agency has requested that the State of Va. direct Dewberry and Davis to explore all options available to address the Ad Hoc concern, complete with drawings and written analyses.

(c) Advise all TAC members, in the same cover letter, that when the 'option' drawings and analyses are available, the Agency will forward them to all members. At the same time, the Agency will schedule another TAC meeting to discuss issues and record the positions of each member organization.

(d) Forward the complete record, together with NBPO recommendation, to the DDA for his review and decision.

(e) Advise all TAC members of the DDA's decision.

(f) Request that the State of Va proceed with the detailed design of the roadway modifications in accordance with the DDA's decision.
